*The Pollution–Productivity Curve:*

*Non-Linear Effects and Adaptation in High-Pollution Environments*

with Faraz Usmani, Global Energy Alliance for People and Planet

Abstract. Air pollution harms labor productivity, yet little is known about whether workers adapt to chronic exposure. We address this question using performance data from India’s premier cricket league, which provides exogenous variation in both acute pollution exposure and long-term exposure histories. We find that a 10 microgram per cubic meter increase in PM2.5 (equivalent to one-half of a standard deviation in our sample) reduces productivity by about 1 percent, with effects concentrated at extreme pollution levels that far exceed WHO guidelines. However, workers appear to adapt: those with the highest levels of chronic exposure show a dramatically smaller response to acute pollution episodes, with the most chronically exposed experiencing approximately 40 percent smaller productivity losses than those with median exposure histories. Our findings suggest that standard estimates from low-pollution environments poorly capture the dynamics between short- and long-term exposure in high-pollution settings, with important implications for environmental regulation in developing economies where chronic exposure is widespread.

# RESEARCH EXPERIENCE

---

**Graduate Student Researcher**

University of California, Davis	
with Dr. Travis Lybbert	2024–present
with Dr. Ashish Shenoy	2023–2024

**Research Analyst**

Mathematica Policy Research, Cambridge, MA	2018–2022
--	-----------

**Policy and Communications Associate**

Innovations for Poverty Action, New Haven, CT	2017–2018
---	-----------

**Research Assistant**

Princeton University, Princeton, NJ and	
Busara Center for Behavioral Economics, Nairobi, Kenya	
with Dr. Jeremy P. Shapiro	2016–2017

## FELLOWSHIPS, HONORS, AND AWARDS

---

Henry A. Jastro Graduate Research Award, \$3,000, UC Davis	2025
ARE Graduate Travel Award, UC Davis	2025
SurveyCTO Primary Data Collection Research Grant Honorable Mention	2024
J-PAL Full-RCT grant (collaborator), \$375,000	2024
Henry A. Jastro Graduate Research Award, \$3,000, UC Davis	2024
ARE Graduate Summer Research Fellowship, \$4,000, UC Davis	2024
Provost's Fellowship in the Arts, Humanities and Social Sciences, $\approx$ \$59,000, UC Davis	2022
Phi Beta Kappa, Middlebury College	2017
Highest Honors in Economics, Middlebury College	2017
Highest Honors in Religion, Middlebury College	2017
Religion Departmental Prize, Middlebury College	2017
Dirks Award (Economics senior of high promise), Nominee, Middlebury College	2017
Fulbright Study/Research Grant Nepal, Semi-Finalist	2017
Thomas J. Watson Fellowship, Semi-Finalist	2017
Kellogg Fellow, \$5,000 grant for senior thesis, Middlebury College	2016
College Scholar, Middlebury College	2013-2017

## PROFESSIONAL ACTIVITIES

---

### Conference Presentations & Invited Seminars

Occasional Workshop in Environmental & Resource Economics at UC Santa Barbara	Oct. 2025
University of Massachusetts - Amherst, Resource Economics	Sep. 2025
Agricultural and Applied Economics Association Annual Meeting	Jul. 2025
Indian Statistical Institute, Delhi	Jul. 2025
Association of Environmental and Resource Economists Annual Conference	May 2025
Giannini Foundation of Agricultural and Resource Economics Student Conference	May 2025
University of Colorado Boulder Environmental & Resource Economics Workshop	Sep. 2024

### Referee Service

*American Journal of Agricultural Economics*

*Energy Economics*

### Departmental Service

Member of Principals of the Community Committee	2025–
Teaching Assistant Coordinator	2025–
Graduate Student Association Representative (Alternate)	2024–
Graduate Student Association Representative	2023-2024

## TEACHING EXPERIENCE

---

### Teaching Assistant

TA for ARE 100B Intermediate Microeconomics (UC Davis, undergraduate):	Winter 2025
Imperfect Competition, Markets & Welfare Economics	

### Mentoring

Diversity and Inclusion in Research, Education, and Career Training Program (UC Davis)	
Graduate Inclusive Education and Mentoring Training (GET) Workshop	2025
Middlebury College Alumni Admissions Program Interviewer	2018–
Tutor for Undergraduates in Department of Agricultural and Resource Economics Courses	2025–

## ADDITIONAL

---

### **Technical skills:**

R, Stata, Python, MATLAB, Julia, Google Earth Engine; L<sup>A</sup>T<sub>E</sub>X

### **In-person fieldwork:**

Nepal, Kenya, Liberia

### **Citizenship**

U.S. Citizen
